

## CS2292 Lab 6

March 17, 2021

### Question 1.

---

Write a two page report detailing the steps that you will follow to implement phase 2 of the project. It can be in the form of an algorithm. The steps need not be very concrete, and you might also discuss the challenges in terms of coding/designing that you think you will encounter etc.

### Question 2.

---
